Each team is allowed a maximum of twenty-three (23) players listed on their roster. A maximum of twenty (20) players may dress for a game – eighteen (18) skaters (max) plus two (2) goaltenders (max). A player may only play for one team in a division. A minimum of six (6) players, including one goaltender are required to start a game.

The submitted roster form (attached) is final and there will be no additions or subtractions for the remainder of the tournament.

If a roster form is not submitted, then the roster appearing on your first game sheet is frozen as such, and will be considered your tournament roster. No more roster additions will be allowed once you have completed your first game.

In the case that a player who has agreed to play on a team isn't available for a game, they should appear on the roster list, but not on the game sheet.

Any players not listed on the game sheet are ineligible to play that game. If a player is late, they should make their arrival known to the game officials to be added to the game sheet.
